## BÜFA®-INDUSTRY GELCOAT 2.0

As Europe's leading supplier, BÜFA continuously invests in the further development of its product range. Of particular importance are good processing properties that save time, materials and working operations.

BÜFA®-Industry Gelcoat 2.0 is a pre-accelerated gelcoat in a spraying consistence based on an orthophthalic acid UP resin. This convincing, reliable industry gelcoat can be used for a wide range of applications and protects components that are used indoors as well as outdoors (technical parts, machine covers, furniture, etc.) when exposed to normal weathering. BÜFA®-Industry Gelcoat 2.0 gives fibre reinforced components a high quality, protected surface. This new generation gelcoat has the best processing properties.

The information given above is based on our current state of knowledge and experience. In view of the many factors that may influence processing and application of our products, the user is not relieved from carrying out his own tests and trials. No legally binding warranty of certain properties or suitability for a particular purpose can be derived from this information. It is the responsibility of the receiver or user of our products to observe proprietary rights as well as existing laws and regulations. The latest version of the EU Safety Data Sheet must also be observed. For further information and Technical Information Sheets, go to [www.buefa.de](http://www.buefa.de).

**PROCESSING METHOD:** Spray processes (S)

**PRODUCTION METHOD:** Batchwise

**AVAILABLE COLOURS:**

- transparent -

669-0002

natural / unpigmented

669-7085

light grey similar  
to RAL 7035\*

669-0510

white similar  
to RAL 9010\*

\*according to the BÜFA method

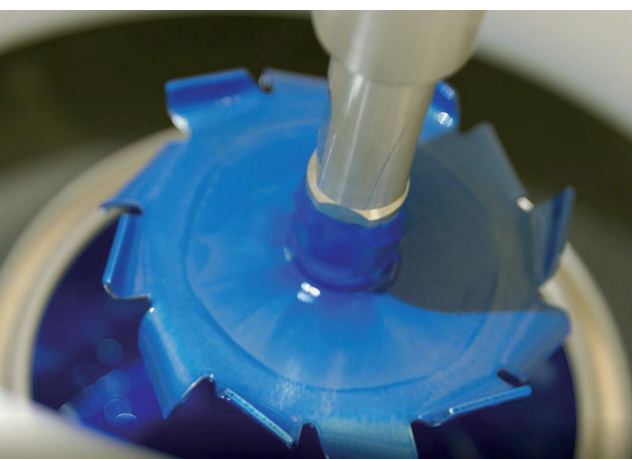

If there is larger order volume, other selected shades of colour are also available. Get in touch with us for this.

### PRODUCT ADVANTAGES:

- Good price/performance ratio
- Good flexibility and little brittleness
- Very processing-friendly
- BÜFA®-Industry Gelcoat 2.0 is REACH compliant

### EQUIPMENT RECOMMENDATION e.g.

- BÜFA®-Tec GSU Delta 5.5 EM
- BÜFA®-Tec GSU Sigma 6 EVO

### TINT YOURSELF WITH "BÜFA®-PIGMENT PASTES:

The Article 669-0002 is an unpigmented, coloured gelcoat that can be tinted with an appropriate BÜFA®-Pigment Paste. Users can mix the quantities they need themselves.
