Leightweight with BÜFA®-Foaming Resin Systems

28.02.2018

The manufacturer of lightweight passenger busses VDL Bus & Coach (Valkenswaard, the Netherlands) has launched its new Citea bus series. This contains several lightweight components, which are made of composite materials. These components are manufactured with [BÜFA®-FOAMING RESIN SYSTEMS](#) based on resins supplied by Aliancys (Schaffhausen, Switzerland).
