12 C RRU

Composites

Technical Information

- Pressure ratio resin: 15:1
- Pressure ration peroxide: -
- Pump volume per cycle : 100 ml
- Hose lengths: 7,5 m
- Pump Capacity, Water max. 2,6 L/min
- Compressed Air max.: 6 bar

The 12C RRU laminating roll unit mixes and doses exactly. You determine the pressure and the ratio of peroxide exactly as you need it. The 12C RRU cannot be surpassed when it comes to versatility.

With the corresponding tools, the 12C RRU can be used as an injection, gelcoat and laminating roll unit.

Laminating roll with extension pipe:

18 x 100 cm
Product No. 028-0092

18 x 140 cm
with pneumatic remote control
Product No. 028-0094

12 x 45 cm
Product No. 028-0039

18 x 25 cm
Product No. 028-0193
